

Drugs, alcohol, tobacco...

Kids are going to learn it from someone!

Today, more Americans are dying of drug overdoses than traffic accidents.

Every single day, an estimated 120 people die in the U.S. of a drug overdose.

SOMETHING HAS TO BE DONE

It is now more important than ever for us to educate our youth, parents, teachers, community leaders, the media and health care providers about the specific harms of drug, tobacco and alcohol use among teens, whose brains are still developing.

Greenville Family Partnership and the **Chris and Kelly HOPE Foundation** encourage all adults to have a conversation with a young person in their lives about making healthy decisions that will keep them on a path toward a successful future.
